
DR News List

About This List

Why this list is critical for communication

At DR Systems, we know that great communication is critical to our mutual success. In order to facilitate great communication during project management and throughout the life of our relationship, we ask our customers to provide us with the DR News List.

By completing this list, you allow DR Systems to help educate your staff continuously. Generally this list includes 20-100 individuals, depending on the site.

How DR Systems uses the News List

Everyone on this list will receive our quarterly newsletter, announcements regarding educational opportunities, and upcoming meetings. We do not spam individuals or share this list. This list should include a large number of staff, as well as all technologists and radiologists.

Saving and returning this PDF form to DR Systems

You can complete this form by typing in the fields.

To send this form back to DR Systems when you finish:

Click the Submit button on the last page.
